**MONTMORENCY**—Large. Tree very hardy and immense bearer, fruiting young; regular bearer of fine crops; fruit large, fine flavor, shining red, valuable everywhere.  
**ROYAL DUKE** — Early sour cherry, large, handsome, bright red fruit. After May Duke. Shipper.

**Special Note to Commercial Orchardists**—Many beautiful cherry orchards at 6 to 8 years old, quickly commence to die back and carry a lot of unhealthy wood structurally finally dying out completely. Avoid this terrible loss of time and money by buying your commercial cherry orchard from reliable nurseryman. We offer the very finest of stock grown from certified bud selected sorts direct from the very finest cherry orchards in the west in The Dulles section, Wasco County, Oregon. We grow our cherry trees on whole roots of true mazzard stock. Many inferior cherry trees are offered annually by unreliable nurseryman. Buy only the best ours will stand the test of time.

**NEW CHERRY INTRODUCTIONS OF MERIT:** Special price, 4-6 ft. 60c each; 10 ft 50c each.  
**SENeca**—2 weeks earlier than Tartarian. Purple Black, rich and good shipper.  
**LYONS**—For early market and roadside, highly prolific, profitable.  
**ROYAL DUKE**—Follows Late Duke—fine for market and roadside.  
**GOLD CHERRY**—An amazing new sweet cherry as hardy as any sour cherry. An early summer Gold Cherry. Wonderful for preserving and Maraschino.

**Standard Commercial Drying Sorts:** Italian, Petite, Coates 1418, Date, Improved French, Noble, Burton, Silver, and Imperial.

**For Commercial Shippers of Prunes:** We offer Early Italian, 2 weeks ahead of Italian. This is a proven profitable sort. Add 10c per tree.  
The Badwood for our prune tree is selected from the finest and best strains on the Pacific Slope.  
**COATES 1418, DATE PRUNE, IMPROVED FRENCH PRUNE**—Sweeter, larger than French, fine for drying. Reddish purple, juicy.  
**HUNGARIAN**—Largest size, beautiful bright red, one of the best for marketing; not good for drying. September.  
**ITALIAN** (Pellenberg)—Medium to large size, oval, dark purple; flesh juicy, sweet and delicious; a standard drying and shipping variety. September.  
**SILVER PRUNE**—Large size and sweet; a good dryer; ripens rather late for northern climates. October.  
**FRENCH or PETITE**—Extensively used for drying, because of its fine texture and sweetness. Reddish purple, sweet and juicy. Fruit medium size.  
**FRENCH IMPROVED**—August-September. Drying; leading prune in California, and unexcelled in quality. Fruit medium size, slightly oval, dark blue, tender; flesh of fine texture, rich and sugary. Tree vigorous and very productive.  
**BURTON**—A new prune which is one of the largest and finest drying prunes. Rich violet-purple in color, with golden yellow flesh and small pit. A consistent and regular bearer. September.  
**IMPERIAL, EPINUSE** (Imperial)—August-September. Drying, shipping and home orchard. One of the largest prunes. Fruit of excellent quality, either fresh or dried.  
**ROBE RT SEIGENT**—August-September. Used principally for drying. Fruit of medium size, oval, very dark purple. Flesh greenish yellow, sweet, with rich pleasant flavor. Requires cross pollination.  
**STANDARD**—August. Drying and canning. Fruit large, dark purple; flesh amber, fine grained, juicy and sweet. Freestone. Requires cross pollination.  
**SUGAR**—Early August. Drying and fresh shipping. The earliest prune. Fruit medium to large, oval, dark purple; flesh sweet, and of medium quality. A good pollinizer.

**Plums**  
**PRICE OF PLUMS—Same as Prunes**  
New Shipping Plum of Merit: Giant Satsuma. Each 60c.  
**Best Cannery Sorts:** Reine Claude, Green Gage, Imperial Gage, Yellow Egg, Early Dancer, Bradshaw, Columbia, Champion, Golden Drop, Burbank Standard, Jefferson, Washington.  
**APEX**—Early June. Shipping and market. One of the earliest plums. Medium size; light crimson, good flavor.  
**BEAUTY**—Early June. Shipping and home orchard. The earliest Japanese plum, important commercial variety. Fruit medium size, heart shaped, and crimson. The flavor is good. Tree productive; self-fertile.  
**PLUMS—Continued**  
apricot flavor. Tree thrifty and attains large size. Requires pollination.  
**GIANT**—August. Shipping. Fruit large and slightly necked. Light purplish red. Ships well; fair in quality. The best pollinizer for President.  
**GRAND DUKE**—August. Shipping. A well-known European variety. Fruit large, oval, deep purple. Vigorous and productive.  
**HUNGARIAN** (Dond)—August. Shipping. Large dark purplish red; slightly necked; very attractive. Shipy and fair in quality.  
**PEACH PLUM**—Fruit large and earliest to ripen; regular, roundish; skin red, dotted with a blue bloom; flesh greenish yellow; tinged with red at maturity; a rich brisk flavor; the leading market variety. Middle of July.  
**GREEN GAGE**—A medium small greenish yellow plum of high quality. Midseason.  
**PEACH PLUM**—Fruit large and earliest to ripen; regular, roundish; skin red, dotted with a blue bloom; flesh greenish yellow; tinged with red at maturity; a rich brisk flavor; the leading market variety. Middle of July.  
**PRESIDENT**—Large egg-shaped fruits with a beautiful purple skin; flesh yellow and of fine texture; commercial shipping plum. September.  
**OMAHA**—The very finest and most prolific "Iron Clad Plum." Most beautiful red, small pit, yellow flesh and supremely delicious both fresh and canned. One of the best pollinizers.  
**GIANT SATSUMA**—A wonderful new origination. Largest of all freestone shipping plums. Blood-red flesh as luscious as any ripe ox heart cherry. A real money maker for shipping and fruit stands.  
**MAMMOTH GOLD**—A very large golden yellow plum, overspread with bright carmine blush. A very hardy sort for heavy soils and thin dry slopes.  
**JEFFERSON**—Finest of all yellow canning plums. Mid season. Used by commercial canners.  
**NEW PLUM SORTS OF MERIT**  
Avon, Triple, Ombis, Pearl at 50c each.  
**EARLY PEACH PLUM** — Same as regular peach plum, except a week earlier.

**PEACHES—Continued**  
apricot flavor. Tree thrifty and attains large size. Requires pollination.

**GRAND DUKE**—August. Shipping. A well-known European variety. Fruit large, oval, deep purple. Vigorous and productive.  
**HUNGARIAN** (Dond)—August. Shipping. Large dark purplish red; slightly necked; very attractive. Shipy and fair in quality.  
**PEACH PLUM**—Fruit large and earliest to ripen; regular, roundish; skin red, dotted with a blue bloom; flesh greenish yellow; tinged with red at maturity; a rich brisk flavor; the leading market variety. Middle of July.  
**GREEN GAGE**—A medium small greenish yellow plum of high quality. Midseason.  
**PEACH PLUM**—Fruit large and earliest to ripen; regular, roundish; skin red, dotted with a blue bloom; flesh greenish yellow; tinged with red at maturity; a rich brisk flavor; the leading market variety. Middle of July.  
**PRESIDENT**—Large egg-shaped fruits with a beautiful purple skin; flesh yellow and of fine texture; commercial shipping plum. September.  
**OMAHA**—The very finest and most prolific "Iron Clad Plum." Most beautiful red, small pit, yellow flesh and supremely delicious both fresh and canned. One of the best pollinizers.  
**GIANT SATSUMA**—A wonderful new origination. Largest of all freestone shipping plums. Blood-red flesh as luscious as any ripe ox heart cherry. A real money maker for shipping and fruit stands.  
**MAMMOTH GOLD**—A very large golden yellow plum, overspread with bright carmine blush. A very hardy sort for heavy soils and thin dry slopes.  
**JEFFERSON**—Finest of all yellow canning plums. Mid season. Used by commercial canners.  
**NEW PLUM SORTS OF MERIT**  
Avon, Triple, Ombis, Pearl at 50c each.  
**EARLY PEACH PLUM** — Same as regular peach plum, except a week earlier.

**Peaches**  
All peaches listed are Freestones unless the word cling follows the name.  
Best commercial peach sorts for the Northwest and Pacific Coast. All Freestones.  
Improved Early Elberta, Shappy, J. H. Hale, Rio Oso Gem, Rochester, Elberta.  
"These are money makers."  
**PEACHES AND NECTARINES**  
5 at 10 rate; 50 at 100 rate; 300 at 1000 rate.

**VARIETIES OF SPECIAL MERIT**  
**Rio Oso Gem Peach**  
(U. S. Plant Patent No. 84)  
A splendid new peach that ripens during the period when there is no other peach on the market.  
Rio Oso Gem ripens ten days to two weeks after J. H. Hale. Has extreme large size of J. H. Hale, is more highly colored, finer grained in texture, firmer and of better quality than J. H. Hale.  
**Rio Oso Gem Yearling Schedule**

**The New Babcock Peach**  
Price same as Rio Oso Gem  
The fruit is almost round, somewhat above medium size, and the color ranges from a beautiful pink to deep crimson. The skin is exceptionally smooth, fine and almost like a Nectarine in this respect. We highly recommend the Babcock either for home planting or as a profitable early market peach. Early June.  
**Commercial Sorts in Ripening Order:** Victor, Mayflower, Alexander, Hales Early, Alton, Triumph, Crawford Special, Rochester, Early Columbia, Yellow St. John, Babcock, Carmen, Shappy, South Haven, Elberta Queen, Early Crawford, Charlotte, Foster, Early Imp. Elberta, Golden Elberta, Cling, J. H. Hale, Rio Oso Gem, Indian Blood, Cling, Fitzsgerald, Champion, Tuscan Cling, Late Crawford, Elberta, Phillips Cling, Improved Mtn. Palora Cling, Peak Cling, Phillips Cling, Lemon Cling, Orange Cling, Chinese Freestone, Lovell, Salway, Krummels Oct.

**PEACHES—Continued**  
**BAVAYS REINE CLAUDE**—Commercial and home canning. Fruit medium in size, roundish-ovate; light greenish yellow. Sweet and of good quality. Popular for the home orchard.  
**BRADSHAW**—A very large, fine, early plum. Dark, violet red. Tree a slow grower, but hardy, vigorous, productive, self-fertile. Season, mid August.  
**BURBANK**—Late June. Shipping and home orchard. Fruit of good size, almost round, yellow mottled with red. Flesh sweet and of good flavor.  
**CLIMAX**—Medium, June. Shipping and home orchard. Fruit large, heart shaped, cherry red; very attractive. Flesh juicy, sprightly, and delicious. Tree bears heavily at an early age; self-fertile.  
**DANSON**—August-September. Local market and home orchard. A tart plum very popular for culinary uses. Fruit small, roundish, dark purple with heavy bloom. Very productive.  
**DEARTE**—Late July. Shipping. A blood-red plum of late introduction. Fruit large and elongated skin a dull red. Slow grower, but hardy, vigorous, productive, self-fertile. Season, mid August.  
**FORMOSA**—Middle June. Shipping and home orchard. One of the best early Japanese plums. Fruit large and heart shaped, becoming cherry red as it ripens. Flesh sweet and of a delicious

**PEACHES—Continued**  
**YELLOW ST. JOHN**—Fruit matures early. Color deep yellow, blushed and splashed with carmine.  
**ROCHESTER**—Has the habits and characteristics of the Crawford, but fully two weeks earlier. Yellow, freestone, good size, very sweet and fine flavor. Requires only half the usual amount of sugar for canning. Does not rot on the trees.  
**CARMAN**—A general favorite in nearly every peach region on this continent. It is a brilliant red.  
**SLAPPY**—Fruit yellow, good keeper; excellent flavor, fine grained, rich. Hardy, best medium early yellow peach. Super-quality.  
**ELBERTA QUEEN**—Same as Shappy peach.  
**CRAWFORD'S EARLY**—Has all characteristics that gratify taste. Color, red, splashed and mottled with darker red and golden yellow. Flesh is beautiful and perfectly free from stone. Matures in mid-season. Vigorous and productive.  
**FOSTER**—A Yellow Freestone of the Crawford type. Large, very attractive. Flesh fine grained, sweet, juicy, and delicious. Every home orchard should have this variety.  
**CHARLOTTE**—An Improved Early Crawford, ripening three days later, much smoother and a heavier bearer. It is a rich yellow meated Freestone canning peach and bears very regular in the Northwest.

**IMPROVED EARLY ELBERTA**—This peach is the "Queen" of all canning peaches, and no doubt the biggest selling peach on the market. Fruit is a beautiful golden yellow, blending into a glorious deep pink on the sunny side, strong protecting skin; exceptionally heavy bearer and a wonderful pollinizer for the J. H. Hale. Ripens about two weeks earlier than Elberta. A truly super-quality canning peach.  
**FITZGERALD**—Fruit large, brilliant color, early yellow, suffused with red, flesh deep yellow, best quality.  
**J. H. HALE**—Peach growers have demonstrated during the past several years that this is a profitable variety. Fruit is of largest size, highly colored; flesh is yellow, exceedingly firm and yet tender, rich color; flavor is unexcelled. Fruit ships exceedingly well, remains on the tree in a firm condition for a longer time than any other freestone.  
**EARLY ELBERTA** — Ripens about a week earlier than Elberta; otherwise the same.  
**EARLY ELBERTA**—Large yellow, red check; flesh yellow, firm, juicy, of high quality. Exceedingly prolific. Leading market variety.  
**GOLDEN JUBILEE**—The wonderful new yellow freestone ripening three weeks before Elberta, which opens the long felt need for a good early yellow freestone. Flesh is firm and delightfully fragrant. By all means, include it in your orchard.  
**EARLY ELBERTA** — Ripens about a week earlier than Elberta; otherwise the same.  
**EARLY ELBERTA**—Large yellow, red check; flesh yellow, firm, juicy, of high quality. Exceedingly prolific. Leading market variety.  
**GOLDEN JUBILEE**—The wonderful new yellow freestone ripening three weeks before Elberta, which opens the long felt need for a good early yellow freestone. Flesh is firm and delightfully fragrant. By all means, include it in your orchard.  
**CHAMPION**—Best of white freestone varieties. Skin creamy-white with red flesh. Extremely heavy and of uniform good quality. Freestone, ripens 2 weeks later. EWART—Month later than Bartlett, large size and fine quality.  
**OTHER NEW SORTS**—Tyson, Lucy Duke, Super Fine, Dana Hovey from N. Y. Station; Shelton, Wilder, Vermont Beauty.

**Nectarines**  
Each prices same as Peaches: 10 and 100 lots 5c additional.  
In growth, habit, treatment and soils precisely similar to the peach. Valuable for dessert; smooth skin.  
**EARLY VIOLET**. Medium size, skin yellowish green, with a purplish cheek. Flesh melting, rich and highly flavored. July.  
**BOSTON**—Medium, deep yellow, with a bright blush and deep mottlings of red; flesh yellow without any red at the stone; sweet, though not rich, with a pleasant and peculiar flavor. Freestone.  
**NEW WHITE**—Large, white with blush; good quality.  
**QUETTA**—Now, introduced by U. S. Department of Agriculture. Yellow meated and highly colored. Very hardy.  
**STANWICK**—For many years has been a leading Nectarine. Extremely large. Fruit, the skin pale green, shaded purplish red; the flesh white and juicy, with a most delicious aromatic flavor. Early August.

**Pears**  
The pear thrives over a wide range—being able to stand more summer heat than the apple. The French pear root also withstands heavy wet soils much better than most fruits. The popular Bartlett roots supreme as a summer pear, but some of our fall and winter varieties are even finer in quality and flavor, and all lovers of fine pears should include some of these in their home gardens. Unlike most other fruits, the pear develops much better quality when ripened off the tree, and the fruit should be picked before it begins to soften. Pears are planted from 20 to 25 feet apart.

**PEARS ON FRENCH ROOT**

5 at 10 rate; 50 at 100 rate; 300 at 1000 rate.				
	Each	10	100	1000
2 to 3 ft.	25c	25c	17½c	15c
3 to 4 ft.	35c	30c	25c	22½c
4 to 6 ft.	40c	35c	30c	27½c

**Best Shipping Sorts:** Bartlett, Bosc, Comice, Anjou, Seckel, Howell, Winter, Nellis, Flemish Beauty, and B. Easter.  
**Cannery Sort:** Bartlett.  
**Special Note:** The New CANNERY RULING eliminates many of the short necked strains of Bartletts. Plant our new strain of Bartlett which easily qualifies in length and diameter.  
**Hardy Sorts for Re-grafting:** B. Easter, Old Home, Kieffer worked on French root.  
**New Introductions From New York Experiment Station:**  
**CAVAGA**—Large as Bartlett, Seckel color, flavor and quality. **GORHAM**—Resembles Bartlett in size, color and shape. Keeps month longer, ripens 2 weeks later. **EWART**—Month later than Bartlett, large size and fine quality.  
**OTHER NEW SORTS**—Tyson, Lucy Duke, Super Fine, Dana Hovey from N. Y. Station; Shelton, Wilder, Vermont Beauty.

**Two Types of Bartlett Pears**  
Many Bartlett orchards produce the undesirable short type of fruit shown at the right. Our budwood is selected only from trees producing the longer type fruit, or Nelson Strain. Highly recommended by canners in California.  
This type of Bartlett will pay 25 to 30¢ better than the regular type Bartlett.  
Sorts marked with a star (\*) will keep well through winter months.  
**CLAPP'S FAVORITE**—Large, resembles Bartlett, excellent flavor.  
**BARTLETT**—Large, golden yellow, juicy, buttery.  
**FLEMISH BEAUTY**—Large, juicy, rich, heavy bearer.  
**BEURRE D'ANJOU**—Large, yellow with blush, good keeper.  
**BOIXENNE DU COMICE**—Large, yellowish red, rich and juicy.  
**SECKLE**—Small, brownish green, highly flavored.  
**BEURRE BOSCH**—Large, cinnamon russet, rich and juicy, productive.  
**KEIFFER**—Large, golden yellow, hardy, blight resistant.  
**BEURRE EASTER**—Large, yellow with red cheek, juicy and sweet.  
**WINTER NELLIS**—Medium size, yellow covered with russet, very fine.  
**WINTER BARTLETT** — Large, resembles Bartlett.  
**OLD HOME**—Blight resistant, for top working.  
**HOWELL**—Commercial sort.  
**SHELDON**—Large, dull yellow to greenish russet, with red cheek. Flesh a little coarse, melting and very juicy. Tree vigorous, productive. October.  
**TYSON**—Summer pear, August. Melting and juicy.  
**VERMONT BEAUTY**—Fine early fall pear.  
**WORDEN SECKEL**—Much larger than Seckel. Good keeper. Very sweet, juicy, October.  
**WILDER EARLY**—Small to medium. Fine grained, tender. Vigorous grower. Early August.
